

## What does it mean to be a Paideia School?

- ❖ **Seminars:** Students focus on a text and discuss the ideas and values within it, building social and communication skills in the process. Such texts can be songs, paintings, books, videos, photographs and so much more.

- ❖ **Coached Projects:** Students study a topic from grade level South Carolina state standards and work to create and then present a final product or performance that is shared with an authentic audience.

- ❖ **Student-led Conferences:** Students share portfolios of their work with their family, discussing what they learned, celebrations from the nine weeks, and goals for the following nine weeks.

**Meadowfield Elementary School**  
**A National Paideia Center**  
**Model School**
