Fleet Services Welcomes Technician Apprentice Tyler Clark

Jose Olvera (left) and Bobby Johnson (right) welcome Tyler Clark (center) to Fleet Services. Tyler is a rising junior at Heyward Technology Center's Diesel Training Program. He was highly recommended by Mr. Martin Butler his Diesel Technology Instructor at Heyward. We have been very pleased with Tyler's efforts and performance during his short time here. We would also like to thank Dr. Charnice Starks-Ray (Richland One) for her help and guidance in bringing Tyler to our team.

As a note, Jose Olvera and Bobby Johnson also started in Fleet Services through the Heyward Apprenticeship Program. Jose has been with Fleet Services for five years and Bobby will celebrate his 25th anniversary with Fleet Services this year.

We are excited that Tyler has joined our team and look forward to him pursuing a long career with Fleet Services.
