

Policy FGD Small/Women/Minority Business Enterprise (S/W/MBE) Participation

Issued 05/21

The board believes it is in the district's best interest for small, women, and minority businesses to participate fully in the procurement process. The superintendent will establish affirmative procedures designed to increase contract opportunity for such business enterprises. This increase of opportunity is expected to affect the awarding of contracts and subcontracts to these businesses which will, in turn, provide an equal business opportunity and then foster overall economic development within the district, county, and state. The established procedures will include specific annual goals to measure performance and the systematic reporting of progress toward these goals.
