Principal Evaluation

At a minimum, the district will use standards and procedures adopted by the State Board of Education (SBE) for the purposes of conducting evaluations of principals and guiding their professional development. The superintendent may add standards and criteria as established by the board and/or by the principal and superintendent in collaboration. The district may use an approved alternative evaluation process that meets state and national standards.

The district will establish an annual professional development plan (PDP) for each principal, based on the state evaluation program's performance standards and criteria and the school's renewal plan.

The district may utilize the results from principal evaluations in decisions regarding principal development, compensation, promotion, retention, and removal. Satisfactory performance on an evaluation does not guarantee reemployment as a principal.
