

Prekindergarten High-5s

Assess
Children's
Development

Create a
Caring Community
of
Learners

Teach to
Enhance
Development
and
Learning

Plan
Curriculum
to Achieve Goals

Establish
Reciprocal
Relationships

• **Plan curriculum to Achieve Goals:**

Use SC-ELS and curriculum to plan interactive lessons
Reading and Writing materials in all Learning Labs
Letter links and environmental print visible and accessible
Label materials, equipment & furniture with pictures & words
Use curriculum frameworks and support documents to plan

Planned learning experiences make real connections
Use Interactive Linear Daily Schedule
Daily Sign-In Log
Word Wall with student and teacher names
Anchor charts with pictures & words

• **Teach to Enhance Development and Learning:**

Promote extended conversations (adult/child & peer to peer)
Plan lessons that scaffold and extend learning
Provide a variety of materials that support Learning Lab activities

Encourage exploration and choice
Implement and rotate student helpers
Ensure all children have opportunities to participate

• **Assess Children's Development:**

On-going assessment is strategic & purposeful
Assessment data is collected and maintained

Assessment data is used to inform instruction
Family input is included in the assessment data

• **Create a Caring Community of Learners:**

Establish a warm and caring environment
Use Conscious Discipline language and strategies
Integrate self-regulation techniques throughout the day

Create a "Safe Space" with appropriate supports
Help children learn how to play & work together
Include every child's family, language, & culture

• **Establish Reciprocal Relationships:**

Teachers work to establish mutual respect with families
Family members are welcomed & provided opportunities to attend and participate in school or classroom activities

Teachers & parents share knowledge about the child
Teachers establish and maintain a two-way communication system with families
