T:

Your encouraging words for kids can help them thrive in school and life! How do your words matter?

Positive words from parents, teachers, and mentors are a rich source of internal motivation and guidance to children and teens. Often, kids recall your words of encouragement for years to come.

Encouraging Words Vs. Praise

1. Be Honest. **Children** are **the** first to recognize when **your words** are not sincere.
2. Focus on Effort, Not Ability.
3. Be Specific.
4. Avoid **the** Need to Compare.
5. Don't Over-**Encourage**.
6. Don't **Use** Encouragement to Control

On Friday, April 26, 2019 several businesses and community members will visit Webber for Career Day. Students will take part in career awareness activities by viewing exhibits and learning about various job clusters that are available. Career awareness lessons will also be taught during counselor classroom visits. These lessons will allow students an opportunity to discuss what their current job is (**a student**), the responsibilities required and how it will impact their job in the future.

Our Character word-of-the-month is **FAIRNESS**: to play by the rules, to be open-minded to the viewpoints of others. Please help your child learn and understand the meaning of our character word. As students display an understanding of the word, teachers choose one student from each class to be recognized as "Student-of-the-Month".

Something to think about

When I approach a child, he inspires in me two sentiments: Tenderness for what he is, and respect for what he may become.

APRIL 2019
