

Image Editing E-Learning

Week of April 6 – April 9:

Goal for Week: To use our knowledge of Photoshop to create a project from a tutorial

Main Standard Covered: Depends on which tutorial you choose

To-Do List:

1. Choose a Photoshop tutorial from the Internet that interests you. There are TONS out there. Just search for Photoshop tutorial and you will see many results. It can be a simple tutorial or an advanced tutorial. Totally up to you!
2. Use Photoshop (or GIMP) to complete the chosen tutorial. This is going to lead us into a project after spring break, so it's important that you do this.
3. Post the finished picture to the Teams Assignment and ALSO POST THE LINK TO THE TUTORIAL THAT YOU CHOSE!

Again, email me at bennett.weigle@richlandone.org if you have any questions.
