

## Web Design E-Learning

### Week of April 6 – April 9:

**Goal for Week:** To understand how to create drop down menus using Bootstrap framework

**Main Standard Covered:** Use a variety of HTML elements to create webpages (Constructing Websites: HTML #5)

**To-Do List:**

1. Log into CodeHS.com (if you cannot remember your username or password then email Coach Weigle)
2. Navigate to the Bootstrap Unit (unit 7) that we were working on before we left
3. Complete all of section 7.8: Drop Down Menus (STOP AFTER 7.8.7)
4. Answer the following discussion questions on the "Drop Down Menu" Channel in Teams
  - a. How can using a dropdown menu instead of listing all of the links in the bar improve your site's usability?

So to recap...

Before the end of the day on Thursday, April 9, I need you to complete the drop down menu section on CodeHS and answer the response question on Teams. I will be catching up on grades this week so make sure you get this done. Hope everybody had a great weekend. Again, email me at [bennett.weigle@richlandone.org](mailto:bennett.weigle@richlandone.org) if you have any questions.
