

Dear Families,

While things are so hectic and uncertain we want to help provide a little stability for you and your child. Take a look at the attached schedule to have an idea of how to structure your child's time at home; of course you should do what's best for your family.

Although we aren't sure how long school will be out, we are providing enough work for your child to keep their brain active with meaningful activities. Packets are separated by subjects. Please contact your child's teacher via email or Class Dojo if you need any help or have any questions. We are all in this together. This is a day by day thing and as soon as we know more information we will let you know. We all miss the students terribly and are working hard on the eLearning units which can be found at <https://www.richlandone.org/domain/2382>. We also are providing some great online resources for all content areas.

Thank you,

2<sup>nd</sup> grade team
