

Supporting Document- eLearning Day 1 Visual Art Packet – Grade 3

Investigate the two Wonder Woman Lego mini-figures pictured above. Notice that the Lego designer created two Wonder Woman figures with different facial expressions. Discuss with a family member how the different facial expressions included on each figure change the feeling or mood of Wonder Woman. Imagine now that you are playing with these figures. In what kind of situation might Wonder Woman be engaged that her facial expression reflects a sense of happiness, cheerfulness, or joy? Also, in what kind of situation might Wonder Woman be engaged that her facial expression reflects a sense of unhappiness, disappointment, or anger? Think about what facial expressions you may include to design two Lego mini-figures. Other than the expressions of happiness and unhappiness included on the Wonder Woman figures above, what other kinds of expressions could you draw?
