

## Supporting Document- eLearning Day 1 Visual Art Packet – Grade 4

First, selecting a group of words/items from the BINGO board. Next, determine what medium or materials you are going to utilize to create a unique artwork that includes your group of words. The medium and materials that you select will be based on what you have available. A sample of mediums and materials include a pencil drawing, a watercolor painting, a paper collage, or a mixed-media artwork. The artwork and description included below are provided as a sample to get you thinking about you will solve this art-making task.

The mixed media artwork pictured to the left includes photographic images from magazines as well as one hand-drawn item (a paintbrush). This image includes each of the items (child, cooking, jungle, paintbrush, and cat) included in column “B” of the Art Bingo board. In creating this image, the artist imagined a girl hiking in the jungle. While on her hike, the child reflected on her favorite pet- her cat Whiskers, her favorite past-

time- painting (with a paintbrush), and the fact that she was starting to get hungry (was interested in cooking/preparing something to eat for lunch).
