## Career Awareness

## Leadership

## Learning

**We focus on the four career pathways of:**

Engineering  
Entrepreneurship  
Government  
and Hospitality and Tourism

**Our career awareness focus is designed to help students:**

- describe a variety of careers and the pathways leading to a job in these careers
- understand how core skills such as reading and math are used in the workplace; and
- recognize the importance of postsecondary education and training after high school

*Bradley is a wonderful school and has been able to help me fulfill my dreams. I feel confident in knowing that Bradley has prepared me for middle school.*

The  
**Leader**  
inMe™

*"My friends are loyal and supportive. My teachers make sure I reach my goals."*

"The Leader in Me", and  
"The Seven Habits of Happy Kids" is utilized to develop a whole school culture that:

1. teaches and models the seven habits,
2. recognizes and nurtures gifts and talents,
3. delivers authentic learning and leadership opportunities and
4. grows essential skills.

The instructional program at Bradley Elementary focuses on Math, English Language Arts, Social Studies, and Science with an integrated focus on career awareness and leadership. Our unique program develops the skills and self-confidence needed to succeed as a leader in the 21st century.

A full-time Magnet Lead Teacher helps teachers to integrate and apply career and leadership skills across the curriculum and through Project Based Learning.
