CAREER AND TECHNICAL EDUCATION

JANUARY 2024

WORK-BASED LESSON

Work-based learning is sustained interactions with industry or community professionals in a real worksite environment. The experiences also include practicable, simulated environments at an educational institution that allows firsthand experience with tasks that are aligned to curriculum. WBL is a school-coordinated, sponsored, coherent sequence of workplace experiences that are related to each students' career goals and interests, while based on instructional preparation, and are performed in partnership with local businesses, industries, or other organizations in the community. WBL enables students to apply classroom instruction in a real-world business or service-oriented work environment. (SC Department of Education, 2021).

Students participating in work-based learning will be able to:

- Acquire employability skills
- Gain knowledge of the work world
- Apply knowledge and skills from the classroom to tasks performed in the workplace
- Explore career paths

Types of Work-Based Learning Experiences

- Youth Apprenticeship
- Cooperative Education
- Internship
- Job Shadowing (on-site or virtual)
- Mentoring
- School-Based Enterprise
- Service Learning
- Structured Field Trips
- CTE Internship, Work-Based Credit Bearing Course

OH! THE PLACES YOU CAN GO! WITH CTE

CREATING A CULTURE OF COLLEGE AND CAREER READINESS

The CTE Department would like to share with you the exciting things that are happening in Dreher's CTE Department. Our school-based CTE Department consists of Business Finance, General Management, Banking Services and Engineering. Our programs have grown exponentially over the last few years and we hope to continue this trend.

COLLEGE AND CAREER READINESS

Economic reality reflects converging expectations. Education is both more valued and more necessary than ever before. The bottom line is that today ALL high school graduates need to be prepared for some postsecondary education and/or training. While academic preparation alone is not enough to ensure postsecondary readiness, it is clear that it is an essential part of readiness for college, careers, and life in the 21st century.
