

Crayton IGP Meeting

AC Flora Scheduling Meeting

February 2, 2024

Dear Parent/Guardian:

Individual Graduation Plans (IGP), as mandated by the South Carolina Department of Education and Personal Pathways to Success Legislation (EEDA), are specific educational plans that align career goals with a course of study during high school to help students successfully transition into the workforce or postsecondary education. In preparation, students will be given career assessments through the South Carolina Occupational Interest Survey (SCOIS) model. This information will be used as a guide during our conferences. To help us develop your child's individual plan, we also encourage you to discuss career goals with them and their high school courses before attending the conference.

Crayton/A.C. Flora counselors will be holding **Course Selection/IGP conferences** for all 8th grade students. Parents are a vital link in this process, and we would like to invite you to attend.

Virtual Conferences will be held during the school day beginning **Tuesday, February 20, 2024 – Friday, February 23, 2024**. Make-up days (**Virtual Only**) will be held **Monday and Tuesday February 26 & 27, 2024**. An email link for TEAMS, along with the assigned times to join the conferences will be sent out to parents no later than **February 13, 2024**. If you would like to attend in person, please email Dr. Amleht Alston 8th grade counselor at amleht.alston@richlandone.org by **February 8, 2024**. If you have questions after receiving this information or you did not get an invite by **February 13, 2024**, please email Dr. Amleht Alston 8th grade counselor at amleht.alston@richlandone.org to let her know. Please note that we strictly adhere to the 20-minute time limit. If you have further questions after the meeting ends, please email the counselor that completed your course selection. Your participation in your student's education is always appreciated. We look forward to speaking with you and your students soon. **Please see A.C. Flora letter enclosed**
