	11:45 a.m.	Physics 2
May 22	7:45 a.m.	Statistics Makeup (for students who had a conflict with AP Seminar and Statistics at the same time on the initial exam day)

Students will receive their testing locations from their AP teachers.

AP students should be present and seated in their testing rooms no later than 7:45 a.m. for morning exams or 11:45 a.m. for afternoon exams.

Metal detector screening will open at 7:30 a.m. by the cafeteria doors to ensure that students are able to arrive at their exam rooms on time. It is important that students arrive on time for testing; because of College Board regulations, we cannot delay the beginning of exams for latecomers.

Most afternoon exams will extend beyond the end of the regular school day, so families should make appropriate transportation arrangements.
