Note 1: In the change columns (Chg), green indicates an increase, red indicates a decrease, yellow indicates no change, and white /gray indicates not applicable (NA).
 Note 2: District and school level total enrollment contains unique students per school where a student is counted multiple times if enrolled at multiple schools.
 Note 3: The mobility rate formula used is given below and was obtained from the High Schools That Work initiative.

$$\text{Mobility Rate} = \frac{100 * (\text{Entries After First Day} + \text{Reentries} + \text{Withdrawals})}{(\text{First Day Enrollment} + \text{Entries After First Day})}$$

Note 4: In 2016-2017, Hall* became an alternative program instead of a separate school. For 16-17 data in this report, Hall* students are separated out rather than included in with the home schools because these students are highly transient which would affect the mobility rates for the home schools.
