Notes: Data calculated from 180-day PowerSchool data. Chronically absent students are defined as students enrolled at least 10 days who missed 10% or more school days during the school year. Numbers may differ slightly from SCDE reports. Decreases are desirable and increases undesirable for this measure. (*) COVID-related closures caused all students to be marked present from 3/16/20-6/5/20 thus resulting in a lower rate of chronic absenteeism.
