

# Lower Richland High School

Student Car Drop-off and Pick-up Line

Lower Richland High School is entrusted with the care and supervision of approximately 1200+ students during the school day. Rules and procedures address the responsibility for the safety of pedestrians and drivers. We ask that parents be consistent with our philosophy to ensure a safe and inviting environment with the main purpose of learning.

## Objectives

- To secure the three areas of entrance and exit for students. The car line for car riders, the bus loop for bus riders, and the student parking lot for our student drivers.
- To maintain traffic flow on all surrounding roadways including Lower Richland Blvd., Rabbit Run, and Garners Ferry.
- Eliminate the possibility of injury to students, staff, personal property, and vehicles.

## A.M. Drop-Off

Please enter the car line from the first entrance located on Lower Richland Blvd. Cars will enter both lanes and merge into one lane, this is to ensure that the car line does not impede traffic on Lower Richland Blvd. Students. Should not exit the vehicle until they reach the designated drop-off area. Pull Forward, dozens of families are trying to get students to school, it takes longer when cars do not pull forward (Do Not leave a car length or empty space). Students do not have to be let out right in front of the door. Students are encouraged to be ready to exit the vehicle after pulling as far toward the LRHS Arena as possible.

Students will stay in the car until they reach the drop-off area between the Arena and the Cafeteria. Cars are asked to pull as far as possible as directed by staff to ensure the line is free flowing. Students will enter the double doors near the cafeteria (and A-Building).

Parents are asked to be patient and arrive early so that the students enter the building before 7:50 A.M. Please pay attention and limit cell phone use while in the car line. If you need to enter the building, please park in the semicircle lot near the flagpole.

## P.M. Pick-Up

Please enter the car line from the first and third entrances located on Lower Richland Blvd. Cars will remain on the right lane and merge into one lane near the theater, this is to ensure that the car line does not impede traffic on Lower Richland Blvd. Students should not attempt to enter the vehicle until they reach the designated pick-up area. Pull Forward, it takes longer when cars do not pull forward (Do Not leave a car length or empty space). Students are encouraged to be ready to enter the vehicle after pulling as far toward the LRHS student parking lot as possible. Once the student has entered the vehicle, cars will exit on Rabbit Run Rd.

### Zipper Merge:

**The practice of merging from multiple lanes to one lane requires patience and courtesy. It is important to pull up to the defined merge area and then alternate in a zipper fashion into the open lane.**
