## Social Studies Weekly Writings:

*Today my tribe came to me and said we need meat. They came to me because I'm really good at hunting. So, I went hunting for meat and fishing for fish. I used a bow and an arrow to kill the animals and I used spears and nets to kill fish. I caught striped bass with a spear, deer quail and beavers. My tribe members went with me and they caught meat too! We were there for 3 days. We were in danger when a doe ran really close to us so I had to kill it with my bow and arrow. I also saw a bear. I didn't have to kill the bear. Me and my tribe were able to scare it off with wolf fur. When we were scaring the bear it started to rain so we went into the cave until the rain stopped.*

By: Brayden Williams

*I am a South Carolina Indian. My tribe needs me to go hunt. I bring bows, knives and spears. I bring other men with me to hunt. I hunt deer, beaver and fish. I shoot arrows with my bow at the deer and beaver and I fish with a spear. The whole hunting trip takes about 3 days. The danger we face when we hunt are poisonous plants, snakes, bears, other tribes and fur traders. Hunting is hard, but we had a successful hunt.*

## Primary Authors Keep on Writing!

The chicks hatched. They loved Halloween because they liked getting treats. By: Giada Calderon

The bear ran away. The cow ran away. Then the horse ran away. By: Barrett Hill

The dog go home. The dog play outside. Go home! Run away! Play with a girl. Play with a girlfriend. Play with your friend. By: Clara Goffi

I love my mommy and I love my daddy. By: Reagan Hernandez

We like to play with dogs. By: Taylor Daly

We like to play with cats. By: Nathan Swanson

I love you mom and dad at Christmas time. And I love Holden and Westin. By: Barrett Muth

## A Poem about the Universe

By: Charlie Bigelow

Here is a star that exploded so bright. It created the universe and the Earth. The gravity is so strong and so big it keeps us standing and bright. This is the end of my poem so bright.

## Green Plants

By: Aarione Jones

Why are green plants important to both people and animals? They are healthy for animals to eat and make them grow. People eat plants.
