My Perfect Day

By: Olivia Adams

My perfect day is a day without pollution. Also, it would be a day where no one would be mean. Finally, a perfect day would look like everyone being nice and kind to each other.

The tree fell down. The tree got up. I laughed. The clown came to town. He did silly tricks. He licked chocolate ice cream. I woke up when I saw the clown.

Once there lived a piglet that jumped into the helmet. The piglet held on to the helmet. There was a cliff. The piglet and the helmet fell in the lake. –

An Unexpected Trip to the North Pole

By: Isabelle Brashears

It is the day before Christmas eve and I am relaxing in my house. Just then I hear the phone ring. I pick up the phone, it was Santa. He said his sleigh had broken down on the test drive and he needed it to be fixed so he wanted me to help. I said I would come right away. When I got to the north pole I met some snowmen and they said they would take me to Santa. On the way we saw some elves. The snowmen asked if I could go with them. They said yes. They took me to Santa he and said he was very happy to see me and the elves would take me to the sleigh. When we got to the sleigh they said I had one hour to fix it! I worked very fast! I fixed it just in time. Santa thanked me and said he would fly me home!

The Snowball Fight

By : Tyler Seay

There was a snowball fight at the park. General snowball was preparing his troops for a fun snowball fight. Every snowman had a snowball and was ready to throw. "Throw" said General Snowball, and then it began. Snowballs went flying and snowmen got hit until every snowman was so tired they could not move. So very slowly the snowmen crawled home.
