

## Resource Lesson Plan ELA/Math

Hello Parents,

It is imperative that students continue their ongoing learning during this time period. Therefore, inside the learning packet along with the general education teacher's curriculum packet is also differential ELA/MATH lessons geared to your child's educational IEP goals based upon their skill based level. Please keep in mind that the resource academic worksheets don't have to be completed in one day. However, please encourage your student(s) to complete as much as possible along with their name and date at the top.

Thank you,  
Ms. Colclough and Mrs. Kemp
