

Domain		Lesson Title
Math		Math- Number Sense and Operations
Objective(s):		
<ul style="list-style-type: none"> • I can count and write to 8 • I can compare within 10 • I understand addition within 10 		
Learning Standard:		
<p>K.NS.5 Count a given number of objects from 1 – 10 and connect this sequence in a one-to one manner.</p> <p>K.ATO.1 Model situations that involve addition within 10 using expressions, and equations.</p> <p>K.ATO.1 Model situations that involve subtraction within 10 using expressions, and equations.</p>		
Learning Activities:		
Day 1	<ul style="list-style-type: none"> • Have children practice writing 6, 7, and 8 and counting 6, 7, and 8 objects. • Ask children to trace and then write the numeral at the beginning of each problem. • Then have children color the group with that number of objects. (pp 10-11) 	
Day 2	<ul style="list-style-type: none"> • Have children find 1 more than a group of objects. • Have children count how many are in each group and write the number in the first column. • Then have children draw 1 more object, count again, and write the number in the next column. (pp 12-13) 	

Day 3	<ul style="list-style-type: none"> • Have children trace the numbers on the left and draw more counters in the 10-frames to show a total of 6 or 7. • On the right, have children write the number of gray counters shown and the number of counters drawn to make the total. (pp 14-15)
Day 4	<ul style="list-style-type: none"> • In each problem, have children compare the numbers of objects. • Have children write how many are in each group and then circle the number that is less. • If the groups have the same number, have children circle both numbers. (pp 16-17)
Day 5	<ul style="list-style-type: none"> • Ask children to draw counters to finish each picture so that it shows 10. • Have children write the number of dark gray counters and the number of counters that they drew. • Finally, have children trace the numeral 10 to show the total. (pp 18-19)
